

I'm writing to let you know how much Klove radio means to me. I understand that the FCC is asking for comments on the value of this radio station. I truly enjoy and feel blessed by the music I hear on this station. I do not like the music that plays on other stations as I find most of it depressing and unhealthy. If Klove were lost - I believe many people would be greatly impacted. If you have ever listened to Klove you would know how positive and uplifting it is. You can feel safe playing this music with anyone in the car. There is no need to worry about children being exposed to words or ideas that are inappropriate. Too much of what is out there today on the radio is not safe for young people. If I didn't have Klove I probably wouldn't listen to the radio at all. Klove does a great job of keeping listeners informed of local and national news. They allow local churches and organizations to publicize events that are open to the public. What a great way to get the word out on events that benefit the whole family. Secondly, Klove upholds the commitment of keeping listeners informed on national news with updates throughout the hour. They also comply with regulations for the National Broadcasting system. Please keep Klove on the radio. People who listen to this station are so blessed. In turn they pass on a smile and encouraging word to others.... making someone's else day just a little better..... doesn't that make any community better? Thanks for the opportunity to share my thoughts.
